Phylogenetic conservation superimposed onto the *Escherichia coli* Large Subunit rRNA secondary structure - 5' half

Three Phylogenetic Domains
Reference sequence and structure: *Escherichia coli* (J01695)

1. Cellular organisms

- Escherichia coli (J01695)

Number of sequences: 592

November 2001

Positions with a nucleotide in more than 95% of the sequences are shown in one of four categories:

ACGU - 98+% conserved
acgu - 90-98% conserved
- 80-90% conserved
- less than 80% conserved

Otherwise, the regions are represented by arcs.
Arc labels indicate the upper and lower number of nucleotides known to exist within the associated variable region.

SEE FIGURE LEGEND ON 3' PART OF THE STRUCTURE
